

The **MULTI4** marking machine has been so successful that major industrial groups now use **TECHNOMark's** marking technology and advice to meet all their marking needs.

TECHNOMark's know-how (patented modular marking solutions) is currently used in many different industrial areas :

-automotive

-lorries

-motorcycles

-aeronautics

-nuclear

-mechanics

-metals

-electronics

-oil, drilling

-submarine
maintenance

-rail

-food

-defence

-agriculture

-public works

-medical

-lifting

and some others....

TECHNOMark counts more than **4 000** equipments all over the world.

[Here is a list of our main customers :](#)

Automotive industry area

BOSCH (Czech Republic)

common rail injection system

BURGMANN

various automotive components

(Germany, Australia, Austria, Brazil, China, Indonesia, Mexico)

MERCEDES (Germany)

*valves collectors for **MERCEDES S** serie
marking on engine blocks for **MERCEDES Vito***

DANA CORPORATION (USA)

pinions marking

DELPHI AUTOMOTIVE (USA)

injectors marking

DURA AUTOMOTIVE (USA)

seats control systems

FIAT (Brazil)

VIN number marking on chassis

FORD MOTOR COMPANY (USA)

gear-boxes pinions

FRANÇAISE DE MÉCANIQUE (France)

*marking on crankcases, cylinders, flying wheels
and cylinder heads for **RENAULT** diesel powered
vehicles*

HYUNDAI (Brazil)

VIN number marking on chassis

JOHNSON CONTROLS

*car seats for **FIAT** and **FORD***

(Germany, England, Spain- 6000 pieces/day, Mexico, Poland)

LUCCHINI GROUP (Italy)

marking on steering wheels

MAGNA STEYR (France)

*VIN number marking on chassis for **Smart***

MAHLÉ (Poland)

pistons for private car engines

MERIT GEAR (USA)

special pinions

MICHELIN AVS (France)

subsets for suspensions

OSI HICOM (Malaysia)

subsets for suspensions

PRO FABRICATION (USA)

exhaust for racing cars

PEUGEOT CITRÖEN (France)

maintenance tool equipment

RENAULT (France)

*PK gear-boxes for **Laguna***

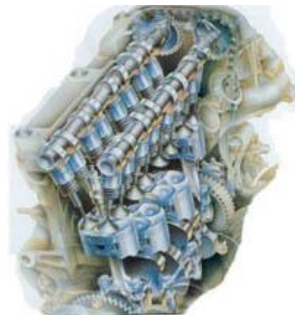

RENAULT (Spain)

marking seats
